Chief Justice
U.S. Supreme Court
Washington DC

R-105

May 18 1964

Dear Sir:

I wish to protest your appointing a person to the Kennedy Assassination Commission who has been associated with many left wing organizations.

You seem to have an affinity with anything of the left. I do not believe you are a Communist or lend toward that viewpoint but your record tends to favor the extreme left and the criminal class. Don't you think in your endeavor to favor the rights of the individual, that you are helping to destroy the rights of the many, who are also individuals. Our government is one of majority rule but the Warren Court has made the rights of Communists and Criminals of more importance than ordinary law abiding citizens.

The ridiculous decision of the death of pornographer who was arrested on another charge and then the police discovered the photographs and then you disallowed the evidence — because the law

Katalin 108 was discovered recently as an excellent example of your peculiar mentality. Suppose the police had a search warrant for a man suspected of burglary and when they entered they saw him commit a murder, accordingly your rendition of law would be that the murder was not included in the search warrant. The victim would still be dead and a crime committed just the same.

Remember you are the Chief Justice of all Americans, not just the Communists and the Criminals for the rest of your term try to undo all the harm you have done and help to destroy Communism and Crime, not possibly and at by sitting up on your tower for removal from mundane contact

Philip L. Mehn
